

## **NEW!!! Pridex Wardrobes range launched September 2009**

Pridex Kitchens are pleased to announce the launch of our fabulous new range of reach-in and walk-in wardrobes. These are available to both the renovation market the new homebuilder and the nationally based group housing companies.

Our range of wardrobes has been carefully crafted to cater for all customers from the budget conscious to those who require something “a little special”. Maximising the use of space and functionality are a priority.

All wardrobes are constructed from quality NZ manufactured MDF and particle board. This, combined with high quality European fittings and accessories such as trouser racks, tie drawers, mirrors, and other options gives Pridex Wardrobes the opportunity to individually design and manufacture custom wardrobes to exact customer specifications. All designs are presented for customer approval prior to manufacture.

This fantastic new range will be showcased throughout New Zealand in Pridex Kitchen and Wardrobe showrooms and can be installed anywhere by approved installers. The first Pridex Wardrobe franchises have already opened in Christchurch and Queenstown (see pictures below). It is expected that Palmerston North and Auckland will be open very shortly with Dunedin following shortly thereafter.

Pridex Wardrobes and some Pridex Kitchens Franchises are still available for establishment in a number of locations throughout New Zealand. All franchise enquiries should be directed in the first instance to [sales@pridex.co.nz](mailto:sales@pridex.co.nz).
